

THE MICROPLEX SOLID F34 is a versatile, easy-to-use continuous form laser printer. The F34 printer is a new generation print engine that offers a straight paper path for printing on a variety of different forms. It also provides the user with flexible media management capabilities by utilizing two independent pin-fed tractor cassettes, the intelligent Paper Stacker (iPS), and an integrated Cutting device.

The F34 is perfectly suited for decentralized, network-based environments supporting industries such as banking, mailing, insurance, fulfillment services, health services, distribution and logistics. The multipurpose SOLID F34 is also capable of printing MICR (CMC7 and E13B) and is PIRA certified. The optional intelligent Paper Stacker (iPS) assures stacking of forms up to 3,000 pages without operator involvement, while the integrated cutter can separate print jobs without user participation.

FEATURES

33 pages/minute print speed

4"-17" width (print area 16" wide)

200,000 pages/month duty cycle

Two different fanfold media paths, alternatively accessible

Integrated Paper Cutter for print job separation and cutsheet letter output

Low Operating Power Consumption

Optional intelligent Paper Stacking (iPS) without operator involvement
